Team ID	PNT2022TMID48300
Title	Gas Leakage Monitoring and Alerting System
Name	YuvaDharshini k
Minimum Marks	2 Marks

### Question:

Write a code and connections in Wokwi for the Ultrasonic sensor.

Whenever the distance is less than 100cms send an “Alert” to IBM cloud and display in the device recent events.

# IBM Cloud Output:

The screenshot displays the IBM Watson IoT Platform dashboard. The top navigation bar includes tabs for 'Browse', 'Action', 'Device Types', and 'Interfaces'. A sidebar on the left contains icons for various IoT functions. The main content area shows a table of recent events for a device. The table has columns for 'Property', 'Value', 'Type', 'Event', and 'Last Received'. The first row shows a 'Distance' of 399.96, and the second row shows an 'ALERT!!' with the value 'Distance less than 100cms'. Below the table, there is a status bar indicating '0 Simulations running'.
